

Calling All Techies!

IT professionals have never been more in demand at Veritude. If you're an IT guru currently in the job market, we want to talk to you! Specifically we are seeking **C# and .NET Developers**.

Responsibilities:

- Design, develop, maintain and enhance a global, multi-tiered business application.
- Work independently, or lead others on a project team, as assigned.
- Leverage their skills in developing the application's integration points with a diverse set of existing systems; quality, functionality and performance will be in high demand.
- The applicant must have a thorough understanding of the available technology, tools and existing designs.
- Collaborate with business staff, IT colleagues and other stakeholders to evaluate defined complex business requirements and processes, determine infrastructure and recommend solutions.

Qualifications:

- Bachelor degree, preferably in Computer Science or Information technology (or commensurate work experience).

Experience:

- 4+ years of in-depth experience in object oriented business application design and development.
- 3 years solid .NET development using C# (Java considered but C#.Net preferred).
- Experience with web-based applications.

Qualified candidates should forward their resumes to peter.gorham@veritude.com or call (617) 563-1615 for immediate consideration.
